

Private Consultation

Whether your loved one is currently in a medical facility, or you're considering future care plans, we know being financially prepared is key. We're here to help guide you through the Medicaid application process from beginning to end, until approval.

Over the years, we have become the Medicaid eligibility specialists. We provide a hand-holding service by navigating families through the complex process and explain how and when your loved one can become eligible.

We will be the liaison between you, social worker, Medicaid office, case management agency, and care facility. We help with completing the sensitive application, obtaining the required information, and preparing you for the interview with the State office.

Our intent is to make the application process as smooth as possible—so avoid the stress, call us first, we have the answers!
